

eDINGO® 500

COMPACT UTILITY LOADERS

Toro is introducing the next generation in electric compact utility loaders: the Toro eDingo 500. Exceptional runtime in a compact design allows the eDingo to fit in the tightest spaces and tackle the toughest of jobs. Ideal for indoor construction and demolition, the eDingo 500 is powered by the HyperCell® Power System, a battery technology developed by Toro to match the power of traditional internal combustion powered products with zero engine exhaust emissions and less noise. The eDingo is optimized to deliver up to an eight-hour continuous runtime*, while maintaining a 515lb ROC allowing it to complete more jobs with less hassle.

KEY FEATURES

30" Width - The new, next generation eDingo has a brand-new frame with a narrow footprint to easily fit through a 3-ft. door

Patented Controls - Operate the eDingo with Toro's patented one-handed traction controls. This user-friendly design allows for smooth and precise movements at any skill level

81" Hinge Pin Height - Industry leading hinge pin height while maintaining 515 lbs. ROC

Up to 8 Hours Continuous Runtime* - The new eDingo incorporates the Hypercell Power System with over 13 kWh for up to 8 hours of continuous runtime

**Run time may vary based upon conditions and attachment being used*
